

WHAT TOOLS CAN GROWTH GROUPS USE FOR GATHERING ONLINE?

We understand that some of our growth groups may not be able to meet physically and so here are some tools for you to gather online. Many tools exist for gathering people together online, and we encourage groups to choose whichever application works best for them. The following is a list of free video conferencing products that we have tested and recommend.

JITSI (Recommended, though it does not work in the Safari web browser.)

1. Using the Chrome web browser, go to <https://meet.jit.si/>

2. Type in the name of your meeting.
3. Hit "Go."
4. Now that you're in the meeting you can control your mic and camera

5. Click  and then  to copy the link to your meeting.
 - Now you can share the link via text or email the link to your group participants.
 - Jitsi also has a mobile app that can be downloaded when the link is clicked on a mobile device.
6. If you are having trouble using this platform, please visit Jitsi Support at

<https://jitsi.org/user-faq/>

FACETIME (Recommended only if all group members have Apple devices)

1. FaceTime will allow for multiple participants, not just a one on one call

2. After initiating a FaceTime call from your iPhone or iPad:

- Pull up the Options Bar
- Touch Add Person and search for the individuals to add to the call
- Then touch “Add Person to FaceTime.”

3. After initiating a FaceTime call from a Mac

- Click , and then click “Add Person.”
- Search for the individuals to add to the call
- Then click “Add.”

4. If you are having trouble using this platform, please visit the FaceTime support page at:
